

# MEGA BAC APPLE

Drain Maintainer, Cleaner  
and Deodorizer

**MEGA BAC APPLE** is a convenient liquid form of living bacteria in suspension to promote decomposition of organic matter and the odors associated with decomposition. **MEGA BAC APPLE** is recommended for use in grease traps, septic tanks, drain lines, holding tanks and garbage areas to control odors and prevent build up.

**DRAIN LINES:** To maintain free flowing lines and control odor, use 3-4 ounces of **MEGA BAC APPLE** 2 to 3 times per week. For best results use at the end of the day to allow time for bacteria to work.

**GREASE TRAPS:** Treat at night or when traps are used least. Pour 8 ounces of **MEGA BAC APPLE** per 180 gallon grease trap capacity directly into trap, or in pipeline closest to trap. Follow with 1 cup lukewarm water. Daily use is recommended.

**SEPTIC TANKS:** Initial treatment: Use 1 pint of **MEGA BAC APPLE** per 200 gallon capacity poured directly into toilet and flushed. Thereafter, use 8 ounces weekly.

**HOLDING TANKS:** Initial treatment: Use 2 ounces of **MEGA BAC APPLE** per gallon of water. Thereafter, use 1 ounce per gallon of water. Repeat after every clean out.

### DIRECTIONS

For maximum benefit, use 8 ounces of **MEGA BAC APPLE** per drain each month to keep lines free flowing and to prevent buildup of waste and resulting odors. When used properly, **MEGA BAC APPLE** will also remove soap scum and hair that may cause drain blockage. Spray into garbage areas, dumpsters and waste collection areas regularly to control odors.
