

# MEGA TAPE

Pressure Sensitive Tape

**MEGA TAPE** is an innovative pressure-sensitive acrylic adhesive tape which is hand tearable and leaves little or no residue on the surface even after 1-2 months of sunlight exposure. **MEGA TAPE** can even be removed from itself and reused with no loss of performance unlike standard duct tapes. **MEGA TAPE** provides superior performance in construction and industrial applications while being versatile enough for household use. **MEGA TAPE** is chemical resistant, waterproof, and can be repositioned. **MEGA TAPE** can be used in all temperatures -40°F to 200°F (- 40°C - 93°C). Typical applications for **MEGA TAPE** include surface or floor protection and paint masking for automotive, marine, rolling stocks, aviation, entertainment and construction industries. **Available colors: Green, Clear and Red**

### DIRECTIONS

Avoid prolonged contact with skin. May cause irritation. Do not use as an electrical insulation tape. May leave residue on PVC, Polished stainless steel, and natural marble stones. A 91% isopropyl alcohol (IPA) easily removes residue if any. Test before use. Use only clean, dry surfaces. For best performance, use within 6 months of purchase. Store in a dark, dry, cool place.
