

SHIELD

Protective Hand Barrier Cream

SHIELD aids in the protection of the skin from irritants such as inks, salts, acids, corrosive alkalis, solvents, gasoline and other chemicals. Forms a barrier to prevent grease, paint resins, soil and ink from penetrating the skin's pores and creases. Keeps skin cleaner, minimizing cleanup time.

DIRECTIONS

SHAKE WELL. Apply a generous amount into hands and rub well into skin, covering all areas including around and under fingernails. Apply to any skin surface where protection is desired. For removal, apply soap and work well prior to rinsing. Reapply when desired.

Health	1
Flammability	0
Physical Hazard	0
Protection	A

Areas of Use:

- *Industrial Workers
