

# TRACER

Leak Inspection &  
Sewer Tracing Dye

**TRACER** is a highly concentrated leak inspection and sewer tracing dye that is formulated for use in all types of sewer flow studies and pollution investigations. It creates an intense fluorescent color for maximum visibility under a wide variety of conditions. **TRACER** contains biodegradable, non-toxic ingredients. When used at the proper dilutions, it is harmless to wildlife and will not affect the operations of sewer treatment processes. Non-natural color promotes safe use and aids in controlling public reactions. **Available in Red, Blue and Yellow/Green.**

### DIRECTIONS

Apply **TRACER** as required for proper study of flow. 1 to 2 gallons will impart visible color to approximately 12,000 gallons of water.

Health	0
Flammability	0
Physical Hazard	0
Protection	-

### Areas of Use:

- \*Flow Origination Studies
- \*Cities & Counties
- \*Infiltration Studies
- \*Pollution Investigation
- \*Maintenance Analysis
- \*Water Treatment Facilities
- \*Water Management
- \*Examine Water Movement

Appearance & Odor.....	Liquid in various colors
Net Contents.....	1 Pint (473 ml)
