

WONDERFOAM

Mineral Deposit Remover
in Gel Formulation

- Cleans
- Deodorizes
- Shines
- Deoxidizes

WONDERFOAM is a new different type of cleaner that safely removes stains that in the past you had to scrub or thought were impossible to remove such as dirt, soap scum, body oils, oxidation, corrosion, light scale, light rust, lime, calcium and stains caused by mildew mold and algae. **WONDERFOAM** eliminates the mineral deposits where bacteria and germs can thrive.

Use On: Chrome fixtures, glass, windows, ceramic tile, grout, rubber, plastic, brass, copper, painted metals, stainless steel, mirrors, toilet bowls and urinals or any hard surface.

Ideal for: Spas, hot tubs, hotels, motels, shower rooms, swimming pools, schools, hospitals, nursing homes, laundries, anywhere water causes oxidation or mineral deposits. Excellent to remove window calcification (waterspots).

DIRECTIONS:

Shower Stall: Mix with 2 parts water or use full strength for heavy accumulations. Apply with rag, sponge or brush and keep surface wet for a few minutes. Agitate lightly with brush and rinse. Keep surface wet for a few minutes. Agitate lightly with brush and rinse.

Bathroom Fixtures: Mix in spray bottle with 4 parts water. Spray on and wipe dry then rinse. Replaces scouring powder.

Toilet Bowls and Urinals: Push excess water from bowl. Swab with full strength solution. Flush and rinse.

Note: Do not place container on formica, or any other porous surfaces. For very old surface being cleaned, test a small, inconspicuous area to determine if glaze or enamel surface is removed. If so, discontinue use immediately.
