

Cycle Renew

Hard Water and Scale Remover
For Automatic Dishwasher

CYCLE RENEW is a powerful cleaner concentrate that removes lime scale, rust, and hard water deposits from institutional dishwashers. The unique clinging formula is highly active - packed with a blend of mild organic acids and detergents that leave the inside of dishwashers sparkling bright.

Directions: Squirt **CYCLE RENEW** inside dishwasher until surfaces are well coated. Use of a sponge or cloth to help cover surfaces is recommended. Run machine for approximately 5 minutes. When cycle has completed, the dishwasher will be free of scale and hard water deposits.
