

Grease It

High Quality Greases

The entire line of **GREASE IT** products are formulated to lubricate exceptionally well and last through a variety of conditions. These petroleum based greases have the perfect additive mixture to provide superior wear and protection.

GREASE-IT RED is an all purpose, non-melt grease especially formulated with extreme pressure and anti-wear additives to provide heavy duty service. **GREASE-IT RED** is one of very few greases able to withstand heavy shock load and impact pressures of 65 Timken load capabilities. **GREASE-IT RED** has excellent adhesive and cohesive properties. **GREASE-IT RED** resists most acids, weather, dirt, salt spray, steam and oxidation. **GREASE-IT RED** protects equipment indoors and outdoors even under high temperatures and heavy loads.

GREASE IT GREEN is a multi-purpose grease fortified with special additives enabling it to withstand the heavy impact and pounding pressures common to heavy equipment. **GREASE-IT GREEN's** special additive package allows the grease to stay in place and not to spatter or pound out of the bearing or fitting. Most greases manufactured today do not have this anti-spatter capability. **GREASE-IT GREEN** has a 550+ dropping point, non-melt grease. **GREASE-IT GREEN** has a 65 Timken OK load with an extreme tack, resists pounding out. **GREASE-IT GREEN** is great for heavy equipment and can be used on a wide range of operating temperatures.

GREASE-IT BLUE is a PREMIUM grade heavy-duty industrial grease designed for extended service life. Resists thinning or hardening in service, which minimizes leakage and prolongs the service life of the grease. It is an excellent centralized lubricant system grease because of excellent shear stability and pumpability over a broad temperature range, it reduces grease consumption and extends relubrication cycles. **GREASE-IT BLUE** is an advanced technology Lithium Complex base grease with the most up to date additives which gives longer bearing life and reduces the need to stock several greases, thus preventing misapplication. **GREASE-IT BLUE** is formulated for a wide range of applications to provide superior protection against high temperatures, water wash out, corrosion, acid contamination, wear, rust and oxidation, extreme pressure, high speeds and plugging in centralized lube systems. NLGI 2; USDA H2

Directions: Pump in grease until all old grease comes out.

Areas of Use:

- *Construction machinery and equipment
- *Automotive uses
- *Marine uses
- *Anywhere excellent lubrication is desired.

Appearance and odor.....	Various color gel with oily/characteristic odor.
Specific Gravity.....	N/A
VOC.....	N/A
Net Wt.....	14oz
