

# Mega Bac Plus

Enzyme & Bacteria Cultures

**MEGA BAC PLUS** combines special multi-cultured strains of natural bacteria with the waste digesting properties of salmonella-free natural enzymes that are non-pathogenic and non-polluting. These anaerobic and aerobic bacteria have been cultured specifically for their ability to digest waste quickly and effectively thus speeding up the normal break-down process. Free enzymes are then combined with the bacteria to make **MEGA BAC PLUS** the fastest working “bugs” in the industry. They quickly and effectively break down organic matter and the odors associated with decomposition. It is recommended for use in grease traps, septic tanks, drain lines, holding tanks and garbage areas to control odors, and prevent build-up.

**Directions: SHAKE WELL BEFORE USING. DRAIN LINES:** To maintain free flowing lines and control odor, use 3-4 ounces of **MEGA BAC PLUS** two to three times per week. Initially, add 4 oz. of **MEGA BAC PLUS** for every 2” of pipe size. For heavy use drains use 4-6 oz. per week. Bleach, disinfectants and chemical drain openers may kill bacteria. Retreat the system with **MEGA BAC PLUS** after using these types of products. For best results, use at the end of the day to allow time for the bacteria to work. **GREASE TRAPS:** Treat

at night or when traps are used least. Pour 4-5 oz. of **MEGA BAC PLUS** directly into trap, or in pipeline closest to trap for traps less than 20 cubic feet capacity. For grease traps larger than 20 cubic feet add 8-10 oz. Follow with 1 cup lukewarm water. Daily use is recommended. **SEPTIC TANKS:** Initial treatment: use 1 pint of **MEGA BAC PLUS** per 25 cubic feet capacity poured directly into toilet and flushed. Thereafter, use 8 ounces weekly. If septic tank has become clogged and odorous, add 1 gallon of **MEGA BAC PLUS** directly to the tank through the manhole. **HOLDING TANKS:** Initial treatment: use 2 ounces of **MEGA BAC PLUS** per gallon of water in holding tank. Thereafter, use 1 ounce per 50 gallons of capacity. Add 1 pint per week for maintenance.

Health	0
Flammability	0
Reactivity	0
Protection	B

**Areas of Use:**

- \*Municipalities
- \*Apartment complexes
- \*Hospitals
- \*Public building
- \*Restrooms
- \*School districts
- \*Industrial kitchens
- \*Retirement facilities

Appearance and odor.....	Liquid, milky white with floral odor.
Specific Gravity.....	N/A
VOC.....	N/A
Net Wt.....	Bulk, Gallons, Quarts
