

Mega Safe

Safety Solvent

18,000 Volt Dielectric Strength

MEGA SAFE provides industry an alternative to products containing chlorinated solvents. Dries quickly, leaving no residue. The low-odor, non-flammable, non-conductive formula cleans and degreases electric motors, power tools, printing presses, refrigeration and air conditioning equipment, generators and starters, office machines, most metals including steel, nickel, zinc, titanium, galvanized steel, copper, magnesium, brass and tin plate. Also safe for use on some plastics, including those used in contact and circuit board construction. May affect certain types of plastics, such as PVC, ABS, acrylic styrenes, and polycarbonates. If unsure of compatibility, test in an inconspicuous area prior to use.

Directions: Spray surface to be cleaned and wipe with clean cloth. For heavy deposits, let stand for 30 seconds or scrub with brush. Flush a second time and wipe with clean cloth. Electric motors may be cleaned while in operation. Blow dry with compressed air and lubricate bearings after cleaning.

Areas of Use:

- *Electric motors
- *Power tools
- *Printing presses
- *Refrigeration and air conditioning equipment
- *Generators
- *Starters
- *Ultrasonic cleaners
- *Film cleaning equipment
- *Auto repair shops
- *Factories
- *Printers
- *Machine shops
- *Aircraft services
- *Electrical maintenace services

Appearance and odor.....	Clear colorless to yellow liquid with strong solven odor.
Specific Gravity.....	1.3
VOC.....	97%
Net Wt.....	20 oz.
