

U-Pod Plus

Urinal Deodorizer, Descaler and Cleaner

U-POD PLUS is a powerful cleaner and descaler that removes years of calculus build-up in pipes and prevents new build-up from forming. It also helps prevent costly plumbing bills due to build-up in pipes. **U-POD PLUS** eliminates a major source of urinal odors deep in the pipes and emits a light, fresh scent. No tools, tapes or screws required for a simple, seconds-only installation; easy refill cartridge for fast servicing. No metal parts to create rust or scratch on porcelain. Contains no paradichlorobenzene, a possible carcinogen. Gentle on pipes - no harsh cleaners. Semi-permanent bracket reduces waste from each use. Refill cartridge made with #5 recyclable plastic. **U-POD PLUS** with its flexible design, fits most urinals, providing unlimited men's restroom placement opportunities.

Directions: Step 1: Remove the mounting bracket, cartridge and fragrance cap from their packaging. Each starter kit includes a pair of gloves. **Step 2:** Orient the mounting bracket with the arrowhead extensions pointing up with the mounting bracket facing you on the top of the bracket and the bottom. Position the arrowhead extensions of the mounting bracket straight up and down to line up with two water opening holes along the top inner rim of the urinal. Push the arrowheads straight into the water opening until the unit securely hangs from the holes. **NOTE:** *It is okay to bend the arrowhead extensions as necessary in the order to reach the water opening holes.* **Step 3:** Assemble Cartridge by inserting the fragrance cap into the front of the Cartridge. Holding the Cartridge so Omega Logo is facing out, slide the bottom of the until into the bracket first, followed by the top until it "snaps" into place.

Health	1
